Dear Lill;

I hope you won't be offended
at my writing you a letter.

Horace sent me the Photo of Howard's
last sleep in this world. I am so happy
for him, wish I was with him and
will be some day.

I expect for Horace to follow soon.
Then you - I will be left to love it out

I sincerely regret your feeling toward
me, but I can't help that.

Mamma & Papa put certain talents into
my hands. your hands, I'll be glad
to report to them the use of mine.

My records show today, where ever

lot & parcel of mamma's land went to
and the price received and the
disposition of every dollar

With what was given² me, & at 75 years
went down to two educated daughters
a comfortable home, and in good health
except my eyes.

The last time I saw Howard at his
little home we discussed a little
your attitude toward me and
Thank God. He expressed then no
hatred, or disapproval of me, He told
me of your kindness, saying he
had turned over to you the proceeds
of his Virginia Dale & you saw to
it that his every need was supplied
Not one word of criticism of me from
either Howard or Dorcas.

And the same fit is just as I kept
it, you as administrator of Papa's &
Nether estate could years ago have
seen to it, if I was wrong in my
contention. But you did not
see fit to do so,

now, from time to time I expect
to be in Panama City & if there's
no objection from your doctor
be glad to see you.

The last time I was there you were
not very well, but at your office,
you did not feel like seeing me at that
time but suggested that Mary
& I should be at your home. Well I did
not feel that ^{it was} particularly
interested in seeing me. So I did
not call. Now I would like to see
you, and if it is agreeable I
will call you when I am down
there again.

As I write you Miss Elise & husband have
located in Berkeley California and
Dorothy has advised that she & her parents
were moving to Seattle Washington.

I trust that this letter will

not offend you and that some time
in some way you & I can be
friends again this side of
the River

Yours. At Love
